General TEA BANH
Deputy Prime Minister
Minister of National Defense

Senior Minister PRAK SOKHONN
Deputy Prime Minister, Minister of Foreign
Affairs and International Cooperation,
Chairman of NCC for PKO

General SEM SOVANNY
Director General of NPMEC

❖ National Centre For Peacekeeping Forces, Mine & ERW Clearance

□ Mission:

- To select qualified personnel for Peacekeeping Operations
- To provide pre-deploy training and education
- To implement effective domestic demining

II. Challenges in the United Nation Missions

- According to the report from the United Nation mission that has a lot of emerging challenges especially in the mission in Central African such as MINUSCA, one of the remaining challenges for the troops to perform the tasks is the lack of infrastructure such as temporary or wooden bridges across creek line and river.
- As such, the National Centre for Peacekeeping Forces begins the initiative to seek for the capability that could temporarily transport the troops across the water such as PMP and TMM so that they could conduct the demining tasks effectively.

III. Introducing to a new capability in the training institutions

- PMP Floating Bridge

- TMM (Heavy Mechanised Bridge)

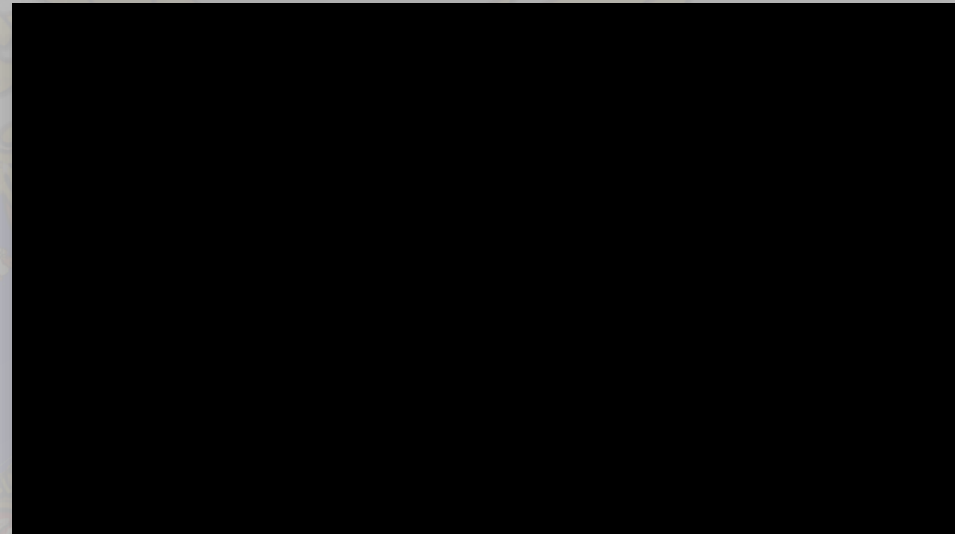

PMP Floating Bridge

TMM (Heavy Mechanised Bridge)

IV. Special Remark

- Special thanks to the Australian peacekeeping effort on the UNTAC mission in Cambodia in 1993 that was led by LT.G John Sanderson.
